

Riley Beenders

SITE RELIABILITY | INFRASTRUCTURE AUTOMATION | SYSTEMS ADMINISTRATION

Bethlehem, PA | [\(484\) 523-4431](tel:(484)523-4431) | rileybeenders@gmail.com | www.rileybeenders.com | linkedin.com/in/riley-beenders

PROFESSIONAL SUMMARY

Technology leader with 10+ years of multidisciplinary engineering experience and 5+ years across network deployment, IT infrastructure, and self-hosted platforms. Builds automation and tooling with PowerShell, Python, and Git, administers Windows/Linux systems, and operates redundant Kubernetes, Docker, and Proxmox environments with monitoring, alerting, root-cause troubleshooting, and security-focused risk analysis.

CORE EXPERTISE

Automation & CI: PowerShell; Python; Git/GitHub and GitHub Actions; WinGet package automation; scheduled tasks; workflow automation; software and process standardization

Infrastructure: Windows/Linux systems administration; Kubernetes; Docker and containerized applications; Proxmox virtualization; virtual machine and container management; Vercel deployment

Security & Observability: Reverse-proxy and firewall routing; server network and VLAN configuration; DNS; domain-based application access; SHA-256 integrity verification; live monitoring and alerts; data logging; risk analysis

PROFESSIONAL EXPERIENCE

Proteor / Proteor Printing Solutions | Coplay, PA

January 2025 - Present

Lead, Research & Development Engineer

- Managed and expanded the division's IT infrastructure after the Proteor acquisition, standardizing software and internal processes to align with company-wide systems.
- Implemented ProteorPrint OS with an external software partner, enabling remote operation, live video, AI-assisted failure alerts, and material, waste, and outcome metrics.
- Built an automated LabVIEW/Modbus QC system with hands-free startup and private-VLAN connectivity that monitors tolerances in real time and stores traceable reports on a remote server.
- Performed risk analysis and mitigations to EU and U.S. standards across ProteorPrint hardware and cloud products, and provide troubleshooting and technical support through after-sales service.

Filament Innovations | Whitehall, PA

May 2020 - January 2025

Chief Technology Officer (Jan 2023 - Jan 2025) | Lead Electro-Mechanical Engineer (Jun 2022 - Jan 2023) | Industrial Engineer (Apr 2021 - Jun 2022) | Engineering Technician (May 2020 - Apr 2021)

- Progressed through four roles to CTO, owning internal IT infrastructure and technology strategy while staying hands-on across firmware and software systems.
- Designed and hosted a redundant Kubernetes cluster running a self-developed ERP/CRM for orders, inventory, tasks, projects, and customer interactions, with dynamic BOM generation linked to purchasing.
- Integrated a multi-board CAN-bus control architecture and independently testable electronics enclosures that simplified wiring and debugging.
- Diagnosed mechanical and electrical problems during assembly and operation, improving early product reliability and documenting design limitations for product improvement.

ADDITIONAL RELEVANT EXPERIENCE

RB's Auto App Updater - PowerShell Automation Project | 2026 | One-line PowerShell install that upgrades every WinGet package via an elevated scheduled task, maps exit codes to plain-language statuses, and self-updates after SHA-256 verification.

RileyBeenders.com - Full-Stack Portfolio Project | 2026 | Built and deployed a TypeScript/React/Next.js site on Vercel with structured JSON content, a Node.js PDF endpoint, Git version control, a GitHub Actions workflow, and web analytics.

Northampton Area School District - Computer/Network Technician | 2016 - 2019 | Built network infrastructure and deployed 750+ wireless access points across six school buildings; automated setup-data entry for 2,500+ Chromebooks with an Arduino-based tool.

EDUCATION & PROFESSIONAL DEVELOPMENT

Penn State University | B.S., Electro-Mechanical Engineering

December 2024
